- * We have now to announce to you our resolution to grant to the Forces the Company's moiety of the Booty which may be available for distribution under said Warrant.

1. Referring to the correspondence* which has passed on the claim interposed on behalf of the Forces employed in the Burmese War, to compensation for the value of Booty, and other property captured during the War, and destroyed to prevent their again falling into the enemy's power; we have now to acquaint

2. Observing in your Military Consultations of the 30th June 1839, a Schedule or Statement as transcribed in the margin* of certain proceeds of Burmese Booty, which did not appear to have formed part of the sums granted by His late Majesty in the Warrant, dated on the 17th September 1831, and being desirous, that any sums belonging to the Captors and remaining undistributed should be included in the Grant, for which application had been made; We requested the Lords Commissioners of Her Majesty's Treasury to advise Her Majesty to grant as Booty, the several sums specified in the said Schedule, with interest due upon them, provided such principal, and interest, shall not have been already included in the Royal Grant of 17th September 1831, and provided the sum shall be recovered by us, or, on our behalf. The Grant has been in conformity with this application, and We now call your special and immediate attention to this part of it, in order, that the exact state of the Prize Fund may be ascertained and all sums due to it, realized for distribution.

3. You will observe that Her Majesty has been graciously pleased to grant one moiety of the sums due or to be realized under the Royal Warrant, to the East India Company, for their own proper use, and the remaining moiety to us, in trust to distribute the same for the use of the Commanders, Officers and Men, belonging to the Army, Navy and Marines employed in the Burmese War, to be appropriated and distributed amongst such Forces in the manner, and

5. The distribution is to be made to those, who participated in the Grant under the Warrant of 17th September 1831; and according to the same Scheme or Schedule, you will not however pay to any individuals of the Royal Navy the Shares which may be allotted to them individually, according to the said Scheme or Schedule, but will apprise us of the aggregate amount of the Shares allotted to those individuals, in order to that we may pay the said amount to the Lords Commissioners of the Admiralty, who will order the same to be re-distributed, according to the rules of the Navy.

6. Agreeably to the desire of the Lords of the Treasury, we shall authorize payment of the amount of the legal expenses incurred by Lieutenant General Sir Archibald Campbell, K. C. B., in connexion with the present Grant.

The amount, viz. £978 18 6 you will deduct out of the Prize Fund. You will also repay us out of that Fund, for the amount of the Stamp Duty, and Fees, on the Grant, viz. £2626 4, which we have paid to H. M.'s Government. You will observe that this Stamp Duty is assessed on the whole amount of the Grant, and actual and conditional. We have however received in assurance from the Lords of the Treasury, that if any portion of the amount should prove to be irrecoverable, their Lordships will be prepared on receiving a representation to that effect from us, to direct a return of the proportion of the Stamp Duty charged, on the sum, which it may be found impracticable to recover, you will therefore duly apprise us of that proportion, the amount of which you will not, of course, deduct from the Prize Fund.

(Signed)

VICTORIA R.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, To all to whom these Presents shall come Greeting. Whereas by Warrant under the Royal Sign Manual of His late Majesty King William the Fourth, our late Royal Uncle of glorious and happy memory, bearing date the Seventeenth day of September, one thousand eight hundred and thirty-one, in the second year of His said late Majesty's Reign, reciting, amongst other things, that at the commencement of the year one thousand eight hundred and twenty-four, numerous unprovoked aggressions committed by the Burmese upon the South East Frontier of the Possessions of the United Company of Merchants of England trading to the East Indies had induced the Supreme Government in India to decide upon attacking the Burmese in their own Country, and that an Expedition was accordingly formed, consisting of His Majesty's Land Forces and the Land Forces raised and paid by the said United Company, and of His Majesty's Ships and Vessels of War and the Ships and Vessels of War of the said United Company, under the Command of Major General Sir Archibald Campbell, G. C. B., and Commodore Grant of His Majesty's Ship Liffey, then Commanding His Majesty's Naval Force in India—and that during the Hostilities or Warfare carried on by the said Expedition under the Command of the said Major General Campbell and Commodore Grant, and during certain periods afterwards of his Successor or Successors in such Command, a quantity of Booty and Plunder, consisting of Ordnance, Arms, Artillery Stores, and Ammunition, Grain, and a number of Bells and other Effects were taken, of which the following Schedule or account had been rendered, that is to say,

Sum received into the Treasury in India,	Sicca Rupees.
Amount of Valuation of the Military Board in Bengal, including the Bells returned,	18,041
	4,99,642
	5,17,683

exclusive of Boats and other Property destroyed in order to prevent their falling again into the Enemy's hands, of which no authentic account had then been furnished, which said Booty and Plunder did of right belong to His Majesty in right of His Royal Prerogative, His Majesty was graciously pleased to give and grant and did thereby give and grant the said captured Boats and Plunder, or the produce or value thereof as set forth in the Schedule or account hereof, unto the said United Company of Merchants of England trading to the East Indies, or to such person or persons as they should appoint to receive the same, upon the Trust and on the conditions following, that is to say, upon Trust to retain and apply one moiety thereof to the proper use of the said Company, and as to the remaining or other moiety thereof, in trust to distribute the same amongst His Majesty's Land and Naval Forces and the Land and Naval Forces of the United Company of Merchants of England trading to the East Indies employed in the said Expedition, according to the following Scheme or Schedule, videlicet.

The whole of such Moiety being divided into eight equal parts.—

To the Commander in Chief and Flag and General Officers to be distributed amongst them, so that each Commander in Chief shall take double that share which each General and Flag Officer (not being a Commander in Chief) shall take, but if the number of Flag and General Officers, exclusive of the two Commanders in Chief, shall exceed four, in that case a Moiety of the said one eighth shall be divided between the two Commanders in Chief, and the other Moiety between the other Flag and General Officers.

One Eighth.

To the Colonels, Lieutenant Colonels, and Majors, serving in the said Land Forces, and the Post Captains and Masters and Commanders in the said Naval Forces to be distributed amongst them according to the usage prevailing in India with respect to such Land and Naval Forces.

Two Eighths.

To the Captains of Marines and Land Forces and the Lieutenants serving in the said Naval Forces and other descriptions of persons entitled by His Majesty's Proclamation for the distribution of Prizes in force at the termination of the last War, or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them.

One Eighth.

To the Lieutenants and Quarter Masters of Marines and Lieutenants, Ensigns, and Quarter Masters of Land Forces, and the Boatwains, Gunners and Purser serving in the said Naval Forces, and other descriptions of persons entitled by the said Proclamation or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them.

One Eighth.

To the Midshipmen, Captain's Clerks, Sergeants of Marines and Land Forces and other descriptions of persons serving in the said Land and Naval Forces entitled by the said Proclamation, or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them.

One Eighth.

To the Trumpeters, Quarter Gunners, Seamen, Marines and Soldiers, and other descriptions of persons, serving in the said Land and Naval Forces entitled by the said Proclamation, or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them.

Two Eighths.

And His said Majesty was in and by the said Warrant graciously pleased to direct that the portion of the said Booty and Plunder so belonging to the said Land Forces employed in the said Expedition should be distributed between the Commander in Chief, Officers and Privates composing the same, according to the rule theretofore used and observed by the Army in India under the aforesaid Scheme or Schedule. And that the portion of the said Booty and Plunder so as aforesaid belonging to the Naval Forces employed in the said Expedition be distributed amongst the Commander in Chief, Flag and other Officers and Men belonging to the said Naval Forces employed in the said Expedition agreeably to His Majesty's Proclamation aforesaid, and to the practice of His Majesty's Navy respecting the Ships or Vessels in the Service of the said United Company of Merchants of England trading to the East Indies sharing with them. And His Majesty was thereby graciously pleased further to order and direct that in case any doubt should arise respecting the claims to share in the distribution of the Moiety thereby granted to the Captors, or respecting any demand upon the said Captured Booty the same should be determined by the said United Company of Merchants of England trading to the East Indies, or by such person or persons to whom they should refer the same, which determination thereupon made should with all convenient speed be notified in writing to the Commissioners of His Majesty's Treasury, and the same should be final and conclusive to all intents and purposes, unless within three months after the receipt thereof at the Office of the Commissioners of His Majesty's Treasury His Majesty should be pleased otherwise to order. And whereas the Commissioners of our Treasury have represented unto us that a Memorial had been addressed to them by the Directors of the East India Company, setting forth, amongst other things, that they had taken every means in their power to gain authentic intelligence of the value of the Boats and other Property which might have been destroyed as asserted in order to prevent their falling again into the Enemy's hands, of which no authentic account has been furnished, and that the value which had been made on behalf of the Captors to the value of such Boats and other Property was unsupported by the requisite proof to show, first, that the several alleged Captures were in fact made. Secondly, that such property was subsequently destroyed to prevent its again falling into the Enemy's hands—and thirdly, that if not destroyed, it would have been of the value assigned to it by the Claimants. That they the Directors had nevertheless obtained sufficient evidence to satisfy them that a number of War and other Boats were captured and destroyed in the said War, and that quantities of Ammunition and other

Stores were also from time to time destroyed that though possessing no data upon which to fix the sum to be recommended as the computed value of such Property they were disposed to believe that a sum of three Lacs of Company's Rupees would be a liberal equivalent for all the Booty which the Forces engaged in the said War had taken and were obliged to relinquish for the good of the Service. That the Directors had further represented that from the Schedule or Statement hereinafter set forth of which a Copy was laid before the Government of Bengal by the Prize Agents on the first of June, one thousand eight hundred and twenty-six, it appeared that large sums which had been realized by the Prize Agents had been invested in the Company's Loans by private Agents and which the Directors had reason to believe were not included in the sums specified in His late Majesty's Grant of the Seventeenth of September, one thousand eight hundred and thirty-one, and that the sum of Rupees Sixty-nine thousand, three hundred and eighty-four, fourteen Annas, which appeared in the said Schedule as having been deposited in the Company's Treasury could not be traced in the Company's books, but that if recoverable it would be considered as Booty should We be pleased so to order and direct.

OVERLAND LETTERS AND POSTAGE.

It is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mail, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication; (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2s. each.

RULES

For bonding Salt imported by Sea and deposited in Private Warehouses, to take effect from this date, 28th September 1841.

First—Parties wishing to store Salt in private Godowns under the Government Orders of 11th August 1841, to give notice of their intentions to the Collector of Customs in writing, pointing out the location of the Godown in which the Salt is to be stored and making a Deposit of the Duty in Government Promissory Notes or in Bills accepted by Government.

Second—On receipt of this deposit, the Collector of Customs will cause the Salt to be weighed and delivered from on board ship as at present, sending with each boat load of Salt for its protection in transit, between the ship and the Importer's Godown, a Boat Note (as per Form annexed) signed by both the Preventive Officers delivering and the Salt Chokee Officer superintending the weighment.

Third—On completion of weighment the Collector to report the matter, together with the amount of Company's Paper held in deposit on receipt of this information, and the Boat Notes which must be delivered up by the Importer, the Board will supply the Importer with a Rowannah for the full quantity weighed over the vessel's side.

Fourth—On the expiration of three months from the date of entry of the ship on which the Salt may have been imported, the Collector of Customs will call upon the Importer or Consignee to pay the duty on the full quantity weighed over the vessel's side less 3½ per cent. wastage.

Fifth—The Importer to write off all Salt sold by him on the back of the Rowannah, giving due intimation of sale within 24 hours to the Board, to enable them to depute a Salt Officer to be present at the weighment and delivery—this Officer will not suffer any Salt to be removed save under a separate Rowannah to be granted from the Board's Office. He will also attest the endorsement on the Rowannah, as above provided, of the quantity delivered.

Sixth—A Salt Officer will attend during the landing of the Salt in order to put his seal on the Salt imported, and it will be expected that the Stamp so applied shall not be broken save in his presence.

Seventh—Notice shall in all cases of Rowannahs granted for bonded Salt be given to the Superintendent of Calcutta Salt Chokees.

NOTICE

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Esdign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy laying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descrie the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,

The 1st November, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 1st of November 1841.

Act No. — of 1841.

An Act for discontinuing the rotation of service in hereditary District and Village offices under the Bombay Presidency.

I. Whereas it is provided by Clause 4, Section XVII. Regulation XVI. 1827, of the Bombay Code, that if the duties of the hereditary District Officers and Village Officers and Servants are performed "in rotation by several sharers it shall be competent to the Collector to enforce an arrangement by which each Officer shall, unless dismissed by the Collector, continue in office for three years, or the sharers may at their option select one of their number to be constituted with the Collector's sanction the hereditary Officer." And whereas the rotation system thus maintained by the Bombay Code of Regulations is found injurious to the public service even as thus modified in the period of rotation of office;—

It is hereby enacted, that in all cases of hereditary office the services of which are still exacted and rendered at Bombay it shall be competent to the Collector of Land Revenue, or to the Magistrate accordingly as the service may be rendered in the Revenue or Police Departments to refuse confirmation to any arrangement for rotation service in such office that may be entered into by the sharers or hereditary claimants, and to require that nomination shall be made of a fit and competent person to hold the office, and perform the duties in the manner provided in the last part of the Clause of Section XVII. Regulation XVI. of 1827 above quoted.

II. And it is hereby enacted, that when any Village or District Office shall be nominated to a hereditary office as above provided, it shall be competent to the

Collector or Magistrate to refuse to confirm such nomination, if from age or personal disqualification there shall be cause to think the duties of the office will not be properly performed by him, or if from character and past conduct the person nominated be considered unworthy of trust. Provided, however, that the ground of such rejection shall be recorded in an Official proceeding and in every case of refusal to confirm the nomination of sharers and other hereditary claimants there shall be an appeal to the authority to which the Collector or Magistrate may be immediately subordinate, and the order of such authority in the case shall be final.

III. And it is hereby enacted, that when any person shall be duly appointed to an hereditary Village or District office he may be removed on proof of misconduct or incompetency to the satisfaction of the Officer by whom the nomination is required to be confirmed, and the order for such removal shall be open to a like appeal as an order refusing confirmation.

IV. And it is hereby enacted, that when an hereditary Officer shall be bound to render service in more than one Department, it shall be competent to the Governor in Council at Bombay to prescribe what Officer shall be vested with the control of the appointment and removal of such Officer.

V. And it is hereby enacted, that nothing contained in this Act shall be construed to deter the right of any sharer or hereditary claimant to participate in the rents and profits of any hereditary office so held and filled as is above provided, but if through the number of such claims there shall not remain a sufficiency for the fit maintenance of the Officer performing the duties, it shall be competent to the Collector or other Officer vested with the control of the appointment to and removal from such office to fix the fit remuneration to be assigned to the appointed Officer, and the remainder only shall be subject to the claim of sharers after this fitting remuneration shall have been first paid.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 1st day of February next.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets or England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

NOTICE

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a green Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. $20^{\circ} 58' 30''$ N. Long. $88^{\circ} 4'$ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large *St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descried the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

4th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of repaying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange in which the Company may at the time be drawing Bills upon such Government or Agents.

An Act for facilitating preliminary investigations of Criminal Cases connected with the Collection of the Revenue within the Presidency of Bombay.

I. It is hereby enacted, that it shall be competent for the Revenue Commissioner or his Assistant within the Presidency of Bombay, to exercise the same powers as the Collector and Magistrate of any Zillah under that Presidency in all matters touching the collection and management of the Revenue, and the conduct of Revenue Officers in their official capacities; except that they shall not pass any sentence of punishment; but when the preliminary inquiries are concluded, shall, if the charge be not dismissed, forward the accused to the Magistrate for trial or for commitment according to the nature of the case.

II. And it is hereby enacted, that a Revenue Commissioner or his Assistant, or a Collector of Land Revenue or his Assistant, or a Sub-Collector, may, by written order, delegate to any case, to any native servant regularly employed on their respective Establishments, not being of an inferior grade to a Kharoon, any of the above powers of preliminary investigation, provided they be the same as are exercised by District Officers of Police under the Regulations. And the proceedings under this Act of all such servants shall be sent to the delegating authority for revision, and after such revision, if the charge be not dismissed, the case shall be forwarded to the Magistrate as aforesaid.

III. And it is hereby provided, that nothing in this Act contained shall prevent any Magistrate from making preliminary enquiries and proceeding under the Regulations in all the cases aforesaid, both where the charge has not been investigated under the aforesaid powers, and where it may have been dismissed.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first Meeting of the Legislative Council of India after the 1st day of February next.

Secy. to the Govt. of India.

PORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 1st NOVEMBER, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 1st of November 1841:
ACT No. — or 1841.

An Act for discontinuing the rotation of service in hereditary District and Village offices under the Bombay Presidency.

I. Whereas it is provided by Clause 4, Section XVII. Regulation XVI. 1827, of the Bombay Code, that if the duties of the hereditary District Officers and Village Officers and Servants are performed "in rotation by several sharers it shall be competent to the Collector to enforce an arrangement by which each Officer shall, unless dismissed by the Collector,

"continue in office for three years, or the sharers may "at their option select one of their number to be "constituted with the Collector's sanction the hereditary Officer." And whereas the rotation system thus maintained by the Bombay Code of Regulations is found injurious to the public service even as thus modified in the period of retention of office ;—

It is hereby enacted, that in all cases of hereditary office the services of which are still exacted and rendered at Bombay it shall be competent to the Collector of Land Revenue, or to the Magistrate accordingly as the services may be rendered in the Revenue or Police Departments to refuse confirmation to any arrangement for rotation service in such office that may be entered into by the sharers or hereditary claimants, and to require that nomination shall be made of a fit and competent person to hold the office, and perform the duties in the manner provided in the last part of the Clause of Section XVII. Regulation XVI. of 1827 above quoted.

II. And it is hereby enacted, that when any Village or District Officer shall be nominated to an hereditary office as above provided, it shall be competent to the Collector or Magistrate to refuse to confirm such nomination, if from age or personal disqualification there shall be cause to think the duties of the office will not be properly performed by him, or if from character and past conduct the person nominated be considered unworthy of trust. Provided, however, that the ground of such rejection shall be recorded in an Official proceeding and in every case of refusal to confirm the nomination of sharers and other hereditary claimants there shall be an appeal to the authority to which the Collector or Magistrate may be immediately subordinate, and the order of such authority in the case shall be final.

III. And it is hereby enacted, that when any person shall be duly appointed to an hereditary Village or District office he may be removed on proof of misconduct or incompetency to the satisfaction of the Officer by whom the nomination is required to be confirmed, and the order for such removal shall be open to a like appeal as an order refusing confirmation.

IV. And it is hereby enacted, that when an hereditary Officer shall be bound to render service in more than one Department, it shall be competent to the Governor in Council at Bombay to prescribe what Officer shall be vested with the control of the appointment and removal of such Officer.

V. And it is hereby enacted, that nothing contained in this Act shall be construed to debar the right of any sharer or hereditary claimant to participate in the rents and profits of any hereditary office so held and filled as is above provided, but if through the number of such claims there shall not remain a sufficiency for the full maintenance of the Officer performing the duties, it shall be competent to the Collector or other Officer vested with the control of the appointment to and removal from such office to fix the full remuneration to be assigned to the appointed Officer, and the remainder only shall be subject to the claim of sharers after this fitting remuneration shall have been first paid.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 1st day of February next.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 27th October, 1841.

No. 249 of 1841.—The following Extract of a Military Letter from the Hon'ble the Court of Directors, to the Governor of Bengal, No. 79, dated 1st September 1841, is published for general information :

"Report the particulars of the case of Brevet Captain David Ogilvy, 15th Regt. N. I., who has been permitted to retire from the Service on the Half Pay of his rank, and to settle in Van Dieman's Land, with observations on the general question of allowing Officers to retire in India on Half Pay. Para. 30. We shall not object to your decision on Captain Ogilvy's application, but we desire that no similar permission be granted hereafter. 31. It is absolutely necessary, according to our views and intentions, that Officers who may be compelled to quit India on Sick Certificate, and who may not be entitled to retire on Full Pay, shall try the effects of a temperate climate for the usual term of a Furlough, before they can be allowed to establish their claim to retire from the Service upon Half Pay. If Officers so circumstanced, proceed to New South Wales or some other Colony, and apply thence at the proper time for permission to retire, it is our practice to require satisfactory evidence from the Medical Staff Officers, or other undoubted Medical testimony on the spot, to prove that the applicant is incapable from ill health, to return to the performance of Military Duty in India, on the production of which the Half Pay is granted under the Regulations, without requiring personal appearance in this Country."

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots to the distant Station off Point Palmyras, the arrangements noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. or S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tail of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. $20^{\circ} 58' 30''$ N. Long. $88^{\circ} 4'$ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 p. m., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they discover the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

**FORT WILLIAM,
LEGISLATIVE DEPARTMENT,**

THE 1st NOVEMBER, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 1st of November 1841:

Act No. — or 1841.

An Act for discontinuing the rotation of services in hereditary District and Villages offices under the Bombay Presidency.

I. Whereas it is provided by Clause 4, Section XVII, Regulation XVI. 1837, of the Bombay Code, that "the duties of the hereditary District Officers and Village Officers and Servants are performed" ■ is rotated by several persons it shall be competent to the Collector to enforce an arrangement by which such Officer shall, unless dismissed by the Collector,

"continue in office for three years, or the sharers may "at their option select one of their number to be "constituted with the Collector's sanction the hereditary Officer." And whereas the rotation system thus maintained by the Bombay Code of Regulations is found injurious to the public service even as thus modified in the period of retention of office;—

It is hereby enacted, that in all cases of hereditary office the services of which are still exacted and rendered at Bombay it shall be competent to the Collector of Land Revenue, or to the Magistrate accordingly as the service may be rendered in the Revenue or Police Departments to refuse confirmation to any arrangement for rotation service in such office that may be entered into by the sharers or hereditary claimants, and to require that nomination shall be made of a fit and competent person to hold the office, and perform the duties in the manner provided in the last part of the Clause of Section XVII. Regulation XVI. of 1827 above quoted.

II. And it is hereby enacted, that when any Village or District Officer shall be nominated to an hereditary office as above provided, it shall be competent to the Collector or Magistrate to refuse to confirm such nomination, if from age or personal disqualification there shall be cause to think the duties of the office will not be properly performed by him, or if from character and past conduct the person nominated be considered unworthy of trust. Provided, however, that the ground of such rejection shall be recorded in an Official proceeding and in every case of refusal to confirm the nomination of sharers and other hereditary claimants there shall be an appeal to the authority to which the Collector or Magistrate may be immediately subordinate, and the order of such authority shall be final.

III. And it is hereby enacted, that when any person shall be duly appointed to an hereditary Village or District office he may be removed on proof of misconduct or incompetency to the satisfaction of the Officer by whom the nomination is required to be confirmed, and the order for such removal shall be open to a like appeal as an order refusing confirmation.

IV. And it is hereby enacted, that when an hereditary Officer shall be bound to render service in more than one Department, it shall be competent to the Governor in Council at Bombay to prescribe what Officer shall be vested with the control of the appointment and removal of such Officer.

V. And it is hereby enacted, that nothing contained in this Act shall be construed to deprive the right of any sharer or hereditary claimant to participate in the rents and profits of any hereditary office so held and filled as is above provided, but if through the number of such claims there shall not remain a sufficiency for the fit maintenance of the Officer performing the duties, it shall be competent to the Collector or other Officer vested with the control of the appointment to and removal from such office to fix the fit remuneration to be assigned to the appointed Officer, and the remainder only shall be subject to the claim of sharers after this fitting remuneration shall have been first paid.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 1st day of February next.

OVERLAND LETTERS AND POSTAGE.

It is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mails, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 6d. By the Falmouth route, Letters of half an ounce in weight are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Pulmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a *large Danish Jack* (red with white cross) at her Main Top Gallant Mast Head, and at night a *green Light* in the same situation, besides burning a *Blue Light* every hour, and beating a *Gong* frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Pulmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 10 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. $20^{\circ} 58' 30''$ N. Long. $88^{\circ} 4'$ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a *large St. George's Jack* (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant *gold Mast Head Light*, by *Blue Lights* and *Maroons* used alternately every half hour and also by *Guns* fired every four hours, say at 11 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 10 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 *Vertical* where best seen, but also by the discharge of a *Gun*, if they have any on board, as soon as they discover the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

The Goods and Merchandise of Individuals intended for Consignment to England, re-payable to the Court of Directors of the East India Company.

1st.—The parties in whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding three-fifths of such ascertained value will be made.

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

s. d.

Per Company's Rupee for Advances made at.....	Bengal.
Ditto.....	Madras.
Ditto.....	Bombay.
Per Spanish Dollar Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills are due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

9th.—Parties or their Agents will be required to insure the Goods from fire, and deposit the Policies with the East India Company; such Insurance to take effect from the date of the termination of the Sea risk. Should however the Parties or their Agents fail to effect such Insurance, the East India Company shall be at liberty to insure the Goods, the expense of which shall be reimbursed to them previously to their making over the Goods to their Agents or their Agents.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without other notice to or concurrence of any person whatsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Despatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No. 13 of 1843.

5.—In future we desire that you will restrict your Advances to the great staple Articles of Indian Produce, Cotton, Silk, Sugar, Coffee, Indigo, Salt Peter and Piece Goods—and further that no Advance be made upon any Consignment the ascertained value of which shall be less than 5,000 Rupees.

6.—Several Packages of Tobacco upon which you have made Advances have been seized by the Officers of Customs, in consequence of their having been imported in illegal Packages.—Extracts from the Acts 3 and 4, Will. 4, Cap. 52, Sec. 58, and 6th and 7th Will. 4, Cap. 60, Sec. 4, relating to the Article of Tobacco, are transmitted in the Packet.

Article 6th. "With regard to the Trade in Opium it is agreed between the High Contracting Parties that at each of the periodical Sales of that Article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them the number of Chests so applied for, provided that such supply shall not exceed three hundred Chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for, shall nevertheless be considered as so much in reduction of the three hundred Chests herein before mentioned—the requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the Government Gazette."

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER
HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. $20^{\circ} 58' 30''$ N. Long. $88^{\circ} 4'$ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they deserv the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding three-fifths of such ascertained value will be made.

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

3d.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

4th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of repaying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

5th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

9th.—Parties or their Agents will be required to insure the Goods from fire, and deposit the Policies with the East India Company; such Insurance to take effect from the date of the termination of the Sea risk. Should however the Parties or their Agents fail to effect such Insurance, the East India Company shall be at liberty to insure the Goods, the expense of which shall be reimbursed to them previously to their making over the Goods to those Parties or their Agents.

19th.—Parties receiving Advances, to address in each indorse a letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance of payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Despatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No. 13 of 1839.

5.—In future we desire that you will restrict your Advances to the great staple Articles of Indian Produce, Cotton, Silk, Sugar, Coffee, Indigo, Salt Peter and Piece Goods—and farther that no Advance be made upon any Consignment the ascertained value of which shall be less than 5,000 Rupees.

6.—Several Packages of Tobacco upon which you have made Advances have been seized by the Officers of Customs, in consequence of their having been imported in illegal Packages.—Extracts from the Acts 3 and 4, Will. 4, Cap. 52, Sec. 58, and 8th and 7th Will. 4, Cap. 60, Sec. 4, relating to the Article of Tobacco, are transmitted in the Packet.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. & S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a moon Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbourhood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. $20^{\circ} 58' 30''$ N. Long. $88^{\circ} 4'$ East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical white beam seen, but also by the discharge of a Gun, if they have any on board, as soon as they descrie the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels in the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by the Overland Mail, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the letter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets or England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 6d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage; but if transmitted by the way of Marseilles, they are charged 2d. each.

An account of the weight of the Drug when packed at Behar and Benares, and a Statement of the average weight of Six Chests from each Despatch at Calcutta, may be seen on application at the Office of the Secretary to the Board of Customs, Salt and Opium.

18. It is hereby further notified that under the 8th Article of the Convention between Great Britain and France dated the 7th March 1815 quoted below, the Agents in India of His Majesty the King of the French, or Persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for Sale at the five Sales in the months of January, February, April, May and June, there shall be delivered to them at the average of the particular Sale or Sales in which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisition for the whole of the Opium required by them during the year within 30 days after the publication of this Advertisement specifying the particular Sale or Sales from which the quantity of Opium is intended to be taken. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 18,360 Chests of Behar and Benares Opium as above estimated will be brought to Sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for Sale at each or any of the five Sales above mentioned, but shall not pay for it within the prescribed period of payment, the Governor of Bengal reserves to himself the right of disposing of the Opium which the French Authorities may so fail to pay for either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article 8th. "With regard to the Trade in Opium it is agreed between the High Contracting Parties that at each of the periodical Sales of that Article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them the number of Chests so applied for, provided that such supply shall not exceed three hundred Chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold in every such periodical Sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for, shall nevertheless be considered as so much in reduction of the three hundred Chests herein before mentioned—the requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sales shall have been published in the Government Gazette."

By Order of the Board of Customs, Salt and Opium,
H. TORRENS, Secretary.

NOTICE.

CHANGE OF PILOT STATION FOR THE RIVER HOOGHLY.

NOTICE is hereby given, that referring to the impracticability during the last S. W. Monsoon, owing to the increasing resort of Shipping to the Port of Calcutta, to supply Pilots at the distant Station off Point Palmyras, the arrangements as noted in the following Memorandum from the Master Attendant, will be adopted for the next S. W. Monsoon.

MEMO.

1st.—A Pilot Vessel will be stationed off False Point during the next South West Monsoon, say from the 15th of March to the 15th of September 1842, bearing, according to circumstances, E. by N. a S. E. by S. from the Light House, and in from 10 to 15 fathoms depth of water.

2d.—This Vessel will exhibit by day when any others are in sight, besides the usual Company's Ensign at her Peak, a large Danish Jack (red with white cross) at her Main Top Gallant Mast Head, and at night a good Light in the same situation, besides burning a Blue Light every hour, and beating a Gong frequently in calm thick weather, to warn Vessels coming from the Southward of her near neighbour-hood. She will not however have any Pilots on board, the main object of her intended Station off False Point being to guard all inward bound Vessels from proceeding to the old Station off Point Palmyras during next season, and directing them to a new one in the South Channel between the Tails of the Eastern and Western Reefs, where Pilot Vessels will then be found in from 16 to 20 fathoms water, and from 6 to 8 Miles South West of the present South Channel Buoy, that Buoy lying in Lat. 20° 58' 30" N. Long. 88° 4' East of Greenwich, and in 12 fathoms water.

3d.—For the purpose of more distinctly marking the new Station, the Commanding Officer's Vessel there will always wear by day, when other Vessels are in sight, a large St. George's Jack (white with red cross) at her Main Top Gallant Mast Head, besides the usual Company's Colours at her Peak, and at night be distinguished by a constant good Mast Head Light, by Blue Lights and Maroons used alternately every half hour and also by Guns fired every four hours, say at 8 P. M., Midnight, and 4 A. M. with good Rockets discharged at the same time.

4th.—All Vessels are recommended to be most careful in coming over from False Point to the New Station by constant attention to that safe old Guide the Lead, and thereby correcting their Steerage as Tides or Currents may or may not set them out of their proper course, and they are also advised not to come under 16 fathoms, at night especially, till they reach the Pilot's Station and get their proper Pilots on board.

5th.—Lastly—All Vessels are directed not to approach the Pilot's Station at night without giving due warning, and not only by the exhibition of Lights, say 2 Vertical where best seen, but also by the discharge of a Gun, if they have any on board, as soon as they descrie the first Pilot Vessel near them. They are further recommended to be most careful not to come into collision with any of the Pilot Vessels at the Station on their own accounts no less than that of the Public as they will be held responsible for all Damages, and called upon afterwards to pay for all that may have arisen from bad Look-out, Inattention to Duty, or Carelessness of any kind whatever.

NOTIFICATION.

FORT WILLIAM,
SECRET DEPARTMENT,

THE 20TH NOVEMBER, 1841.

The Right Honorable the Governor General of India in Council has the highest satisfaction in publishing for general information, the annexed Copies of Dispatches from the Military and Naval Commanders in Chief of H. M. Forces in China, reporting the capture on the 26th August, of the Town and Fortification of Amoy.

By order of the Right Honorable the Governor General of India in Council,

T. H. MADDOCK,
Secy. to the Govt. of India.

Head Quarters, Ship *Marion*, Amoy Harbour,
September 5th, 1841.

TO THE RIGHT HON'BLE THE EARL OF AUCKLAND,
G. C. B., GOVERNOR GENERAL, &c. &c. &c.

MY LORD,—I am happy to be enabled to report to your Lordship the complete success of the operations against Amoy with very trifling loss—my anticipations in regard to the preparations of the Enemy have been fully realized, but I did not calculate on so feeble a resistance.

2. The Expedition left Hong-Kong Harbour on Saturday, the 21st August, but, in consequence of light winds, the fleet did not clear the Lamma passage until Monday the 23d, and on the evening of the 25th, we arrived in the outward anchorage of Amoy, a few shots only having been fired, as we were running through a chain of islands, which form the mouth of this anchorage, and most of which the Chinese had fortified. As it was blowing very fresh, I could not get on board the flag ship until the following morning, when I accompanied their Excellencies Sir Henry Pottinger and Admiral Sir William Parker, in the *Phlegathon* Steamer, to reconnoitre the defences, with a view to the commencement of immediate operations. The Enemy allowed us to do so without firing a shot, and the plan of attack was at once decided upon, a summons having been previously sent in, requiring the surrender of the Town and Island of Amoy to Her Majesty's Forces.

3. The Enemy's defences were evidently of great strength, and the country by nature difficult of access. Every island, every projecting headland, from whence

guns could bear upon the harbour, was occupied and strongly armed. Commencing from the point of entrance into the inner harbour on the Amoy side, the principal sea-line of defence, after a succession of batteries and bastions in front of the outer-town, extended for upwards of a mile in one continuous battery of stone with embrasures roofed by large slabs thickly covered with clods of earth, so as to form a sort of casement, and afford perfect shelter to the men in working their guns. Between some of the embrasures, were embankments to protect the masonry, and 98 guns were mounted in this work, which terminated in a castellated wall, connecting it with a range of precipitous rocky heights, that run nearly parallel to the beach at a distance varying from $\frac{1}{2}$ to $\frac{3}{4}$ mile. Several smaller works were apparent at intervals amid the rocks.

9. The entrance to the inner harbour is by a channel about 600 yards across between Amoy and the island of Koo-lang-soo, upon which several strong batteries were visible, and some of these flanked the sea-line and stone battery. It appeared expedient therefore to make a simultaneous attack on these two prominent lines of defence.

4. It was proposed that the two Line of Battle Ships with the two large Steamers, should attack the sea defences on the island of Amoy nearest the town, and that some of the smaller vessels of war should open their fire to protect the landing of the Troops, which was to be effected below the angle formed by the junction of the castellated wall with the sea-line, while the remaining vessels should engage several flanking batteries that extended beyond these works.

5. At the same time, the two heavy Frigates and the *Modeste* were to run in and open their fire upon the works of Koo-lang-soo, where I instructed Major Johnstone, with a Company of Artillery and the 3 Companies of the 28th Regiment, supported by 170 Marines under Major Ellis, to land in a small bay to the left of the batteries, which they were to take in reverse.

6. About $\frac{1}{2}$ -past one o'clock, the attack commenced, the Enemy having previously fired occasional shot at the ships, as they proceeded to their stations. Sir William Parker will no doubt communicate to your Lordship, the very conspicuous part taken by Her Majesty's ships on this occasion. From the difficulty of getting the boats collected in tow of the Steamers, the Troops did not land quite so soon as I could have wished, notwithstanding the judicious arrangements of Captain Gifford, of H. M. Sloop *Cruizer*, who conducted the disembarkation. The 18th and 49th Regiments however landed about 3 o'clock, with very little opposition. The former Regiment I directed to escalade the castellated wall, while the 49th were to move along the beach

and get over the sea-face or through the embrasures. These two operations were performed to my entire satisfaction, and the greater part of these corps were soon in position within the works, and rapidly moved along the whole line of sea-defence, the enemy flying before them. Upon reaching the outskirts of the outer Town, they were joined by a party of Marines and Seamen, whom Sir William Parker had most judiciously landed in support, and whom I directed to occupy a rocky hill in our front in the neighbourhood of which firing was still heard. This duty was promptly and ably performed by Captain Fletcher, of H. M. S. *Wellesley*, and Captain Whitcomb, of the Royal Marines.

7. While these operations were going on upon the Amoy side, the Island of Koo-lang-soo was ably attacked by the frigates, and the troops landed. Major Ellis, with some of the Marines and Cameronians, who first landed, climbed up the rocks, to the left of the Easternmost battery, and, gallantly driving the Enemy from the works on the heights, which were defended with some spirit, continued his progress to the North side of the Island, while Major Johnstone, who closely followed up with the rest of the troops, proceeded across it and carried the remaining works, thus putting us in possession of this very important position. Major Johnstone reports that Lt. Captain Gregg had an opportunity of distinguishing himself in driving a large body of the Enemy from a battery, upon which he came unexpectedly with a detachment of 12 men.

8. On Amoy, a chain of steep rocky hills running from the range already mentioned, transversely to the beach, still intercepted our view of the city, though the outer town lay beneath my advanced post. The guns having been landed by the exertions of the Artillery and Sappers, and brought on far enough for support; had a strong force opposed our advance, I decided upon forcing the position in my front, which appeared extremely strong and well-calculated to be held during the night. Having made the necessary disposition, I directed the 18th Regt. to advance up a precipitous gorge, where the Enemy had two small works, while the 49th were to pass through the outer town by the road to the same hills, extending their left, after gaining the pass, to the works above the beach, so as to open a communication with the shipping. This movement was also executed with spirit, the enemy merely firing off their guns and flying; and at dusk, I found myself in position close above the City, and perfectly commanding it.

9. Owing to the boisterous state of the weather, and the delay in the return of the Steamers, the 55th Regiment had not yet landed, but this was effected at daylight the following morning. I regret to say not without loss, a boat having been swamped and 5 men unfortunately drowned. Thus re-inforced, I pushed strong parties of the 18th and 49th Regiments down to the outskirts of the City, in the North-Eastern quarter of which, upon irregularly rising ground, and closely surrounded by a dense mass of buildings, appeared the walled town or citadel. Having carefully reconnoitred the place, I satisfied myself that, although there was a concourse of people passing and repassing at the Northern gate, the walls were not manned—I therefore thought it advisable to take advantage of the prevailing panic, and having sent a small party with Captain Cotton, the Commanding Engineer, to reconnoitre the approach to the Eastern gate, which he promptly effected; I directed, upon his return, the 18th in advance, having the 49th in support, and the 55th in reserve. The advanced party of the 18th ascended the wall by the aid of ladders found on the spot, and opened the East gate, which was barred and barricaded from within by sacks filled with earth and stones. The remainder of the Regiment passed through it and manned the other gates, the enemy having previously abandoned the place, leaving it in possession of the mob, which had already begun to plunder the public Establishments.

10. I occupied the Citadel with the 18th and Sappers, placing the 49th Regiment in an extensive building without the Public office of the Intendant of Circuit, from whence they could give protection to the Northern suburb, and command the communication to the interior by the only road on this side the Island. The Artillery I placed in a commanding position upon the top of the pass between the City and the outer Town, with the 55th in support, occupying a range of public buildings, in which the Sub-Prefect of Amoy held his Court.

11. Amoy is a principal third-class City of China, and from its excellent harbour and situation appears to be well calculated for Commerce. The outer Town is divided from the City by the chain of rocks I have mentioned, over which a paved road leads through a pass, that has a covered gateway at its summit. The outer harbour skirts the outer Town, while the City is bounded in nearly its whole length by the inner harbour and an estuary, which deeply indent the Island. Including the outer town and the North-Eastern suburb, the City cannot be much less than 10 miles in circumference, and that of the Citadel, which entirely commands this suburb, and the Inner Town, though commanded itself by the hills within shot range, is nearly one mile. The walls are castellated, and vary with the inequality of the ground from 20 to 30 feet in height; and there are 4 gates, having each in an out-work, a second or exterior gate, at right angles to the inner gate. The Citadel contained five Arsenals, in which we found a large quantity of Powder, with store of material for making it; Gingals, Wall-pieces, Mutch-locks, and a variety of fire-arms of singular construction; Military Clothing, Swords of all descriptions, Shields, Bows and Arrows and Spears were also found in such quantity, as to lead to the conclusion, that these must have been the chief magazines of the Province. Within the sea-defences first taken, there was a Foundry, with moulds and material for casting heavy ordnance.

12. All these have been destroyed, and this so much occupied my time, considering too how much the Troops were harassed by parties to keep off Chinese plunderers, and by other duties incident to the peculiarity of our situation, that I abandoned my intention of visiting the interior of the Island. These plunderers flocked into the City and Suburbs, to the extent, as the Chinese themselves reported, of many thousands, and I regret to say, that several gangs penetrated into the Citadel, and committed much devastation. Indeed, with the prospect of having Amoy so soon, I doubt that our marching through the Island might rather have frightened away the peaceable householders, and led to further plunder by the mob than have been of any advantage. Such indeed was the audacity of these miscreants, that I was in some cases obliged to fire, in order to disperse them; but I am glad to say but little loss of life occurred.

13. I am most happy to be enabled to state that the conduct of the Troops has been exemplary; some instances of misconduct have no doubt occurred; but when it is considered that they were in the midst of temptation, many of the houses being open with valuable property strewn about, and many shops in every street deserted, but full of Sham-shu—it is matter of great satisfaction that these instances were so few.

14. During our stay upon the island, I did all in my power to prevail upon the respectable merchants and householders, who had so much at stake, to aid me in protecting property, which they readily promised—but their apprehension of appearing to be on friendly terms with us was so great, that I could obtain no effectual assistance from them, and was unable even to get a Chinese to remain with the guards at the gates, and point out the real owners of houses within the citadel, for the purpose of granting them free egress and ingress.

15. Our departure being determined upon, I could take no measures for permanent occupation, and as the wind was strong against us, we were kept on shore four days in a state of constant watchfulness, until yesterday at $\frac{1}{2}$ past 2 P. M., when the preconcerted signal for embarkation was given by the Admiral. By $\frac{1}{2}$ past 6 every Soldier and every follower had been embarked (without a single instance of inebriety occurring) on board the Steamer, which transferred the Troupe on board their respective Transports during the night.

16. The 3 Companies of the 26th Regiment have remained upon the Island of Koo-lang-soo, which Her Majesty's Plenipotentiary has determined to hold for the present—and I have strengthened Major Johnstone, who is in command, with a wing of the 18th Regiment and a small detachment of Artillery. This little Force, amounting to 550 men, will, I trust, together with the Ships of War also left behind, be sufficient to hold this small but important possession.

17. To the Commanding Officers of Corps and Detachments, Lieut. Col. Craigie, 55th Regiment, Lieut. Col. Morris, 49th Regiment, and Lieut. Col. Adams, 18th Regiment, Major Johnstone, 26th Regiment, Major Ellis, Royal Marines, Capt. Knowles, Royal Artillery, Capt. Anstruther, Madras Artillery, and Capt. Cotton, Commanding Engineer, my best thanks are due; and I have received the most cordial and active support from the Officers of the General and my Personal Staff, Lieut. Col. Mountain, Deputy Adjutant General, Capt. Gough, Acting Deputy Quarter Master General, Major Hawkins, Deputy Commissary General, Dr. French, Superintending Surgeon, and Lieutenant Gabbett, my A. D. C.

18. I cannot too strongly express to your Lordship, in conclusion, my sense of obligation to His Excellency Rear Admiral Sir William Parker, for his ready support and judicious arrangements upon every occasion, as well as for having given me, at the disembarkation and embarkation, and during the whole period of our stay at Amoy, the able assistance of Captain Giffard, to whom my best thanks are due.

19. I have the honor to enclose a List of Ordnance captured, and a Return of the Wounded on our side upon the 26th ultimo, and have no means of correctly estimating the killed and wounded of the Enemy, but it must have been severe, and we know that several Mandarins were amongst the former.

I have the honor to be,

My Lord,

Your Lordship's most obedient humble Servant,

(Signed) H. GOUGH, Major General,

MAJOR GENERAL SIR HUGH GOUGH, K. C. B.,
Commander in Chief, Expeditionary Forces, China

THE RIGHT HONORABLE THE EARL OF AUCKLAND,
G. C. B., &c. &c. &c.

Wellesley in the Bay of Amoy, 31st August, 1841.

MY LORD,—It is with much gratification that I have the honor of announcing to your Lord-

No. 7. ship, the capture of the City of Amoy and the Island of Golong-sao, (which forms the West side of the Harbour), together with their strong lines of Batteries and Sea Defences, mounting above 228 Guns, by the Combined Forces of Her Majesty, after a short, but vigorous attack, on the 26th instant, with very trifling loss on our part.

The Expedition, comprising the Ships of War hereafter named, and 21 Transports containing the Land Forces, Military and Victualling Stores, &c., under the command of His Excellency Major General Sir Hugh Gough, sailed from the anchorage of Hong-Kong on the 21st, and fortunately arrived off the Islands at the entrance of Amoy Bay, by sunset on the 25th, it was then beginning to blow strong, but favored by a fair wind, and good moonlight, with the advantage of the local knowledge of Captain Bouchier of the Blonde, the Fleet were pushed into the Bay, and anchored in security for the night.

A few shots were discharged at Her Majesty's Ships as they passed between the fortified Islands, but no mischief was done.

It blew too hard during the night to admit of any Boats leaving the Ships to sound, or make observations; but no time was lost after daylight in reconnoitring the Chinese Positions, in which the General and Sir Henry Pottinger did me the favor to accompany me, in the Phlegethon Steam Vessel.

We found the Batteries and Works of Defences on the entire Sea face, strengthened by every means that the art of these active people could devise: presenting a succession of Batteries and Outworks, from the extreme outward points of this extensive Bay, until within about three quarters of a mile of the entrance of the harbour, where a high Barrier Wall was constructed from the foot of a steep and rocky Mountain, to a sandy Beach on the Sea; and from this latter point, a strong casemated Work of Granite, faced with soil, and occasional small Bastions with Parapets of stone, to afford flanking defences, was continued to

the very Suburbs and entrance of the Harbour, from whence were masked Batteries with sand bags, until opposite the North East point of Golong-sao Island, altogether 152 Guns.

On the Island of Golong-sao, which is the key of Amoy, strong Batteries, mounting in all 76 Guns, were also placed in every commanding position for flanking the approach to the harbour (which is scarcely half a mile wide at the entrance) and protecting the accessible points of landing.

As it was of the utmost importance with a view to ulterior operations, and the advanced period of the present Monsoon, that we should be delayed as short a time as possible at Amoy, it was determined that the Batteries within the Barrier Wall, and on the Island of Golong-sao, should be immediately attacked by the Squadron, and the Troops landed within the Barrier as soon as it might be practicable, to take the Batteries in the rear: for this object the Wellesley and Blenheim were ordered to anchor against the strongest Batteries on Amoy, and as near the entrance of the Harbour as possible, leaving the Cruiser, Pylades, Columbine and Algerine to engage the extreme point of the line and cover the landing of the Troops, flanked by the heavy Guns of the Sesostris and Queen Steam Vessels; the Phlegethon and Nemesis being appointed to receive the Troops, and tow in the Boats for landing them.

The attack of the Island of Golong-sao, where we had reason to apprehend the water was shoaler was assigned to Captain Bouchier of the Blonde, with the Druid and Modeste, 150 Marines under Captain Ellis, and a detachment of the 26th Regiment under Major Johnston.

Pending the necessary preparations for disembarking the Troops, and moving the Ships into their appointed positions, a communication was received from the shore, requesting to know the object of our visit, to which the answer No. 1 was returned.

About a quarter past one, a steady and favorable breeze having set in, the Squadron weighed and proceeded to their Stations. The Sesostris being the most advanced, received a heavy fire before any return was made, she was soon joined by the Queen, and both commenced action with good effect.

The Wellesley and Blenheim after ranging along the line of Works on Amoy under a smart fire, were anchored by the stern about half-past 2 p. m., admirably placed by Captains Maitland and Herbert in 10 fathoms water, within 400 yards of the principal Battery precisely in the position allotted them: and the Cruiser, Pylades, Columbine and Algerine, took their stations with equal judgment.

The Blonde, Druid and Modeste reached their positions against the Batteries on Golong-sao, a few minutes earlier, but their Captains found such difficulty from the shallowness of the water in placing them satisfactorily, that, to effect this object they very spiritedly carried their Ships into almost their own draft.

The Bentinck had been appointed to sound the Channel ahead of the Wellesley as we ran in, which Lieutenant Collinson very skilfully performed, and then gallantly anchored the Brig within the entrance of the harbour, where she was joined by the Sesostris, which was placed by Captain Ormsby in a very judicious situation for relieving her, and the other Ships from a flanking fire.

The fire of the Chinese soon slackened under the excellent Gun practice of the Squadron: At half past 3, I had the satisfaction of seeing the Marions and 26th Regiment land on the Island of Golong-sao, and the British Colors planted on the Batteries: The Modeste and Blonde then weighed and stood into the inner harbour, and after silencing as they passed the Town Batteries which were out of our reach, they anchored completely inside, and abreast of the City, taking possession of 26 War Junks, with 128 Guns on board, in a state of preparation for sea, but deserted by their Crews.
